## THE NEMO CORSET

Stands for everything good in corset-making.

And the prices, too, are very moderate,

**\$2.00 to \$5.00.**

Nemo Corsets are not only better in workmanship than other makes at the same prices, but embody style features not surpassed even in the high-priced imported makes. Each Nemo model has its special fitness for some particular type of figure, and gives exactly the right outline. Whether your preference is for a long, medium, or short Nemo, the style that will show you off to best advantage is here. The patented relief straps have proved a boon to stout women—apparently reducing the figure at least one-fifth, yet without the least trace of discomfort.

Slender women are equally benefited by the ingenious figure-building appliances to be found only in Nemo Corsets.

Our experts will assist you in securing just the right Nemo, and fit it correctly.

Here are the best selling numbers—corsets that appeal to the vast majority of women:

No. 321—Self-Reducing Corsets, with hip-reducing bands of Lastikops Webbing; for tall and medium stout figures; sizes 19 to 36. . . . \$3.00

No. 319—Self-Reducing Corset, same style as No. 321, but with lower bust and under arm; for short, stout figures; sizes 19 to 36. . . . \$3.00

No. 406—Self-Reducing Corset, with "Lastikops-Linshaping" Extensions, which prevent the flesh from protruding below the corset-edge on the side front; for short, stout figures; sizes 20 to 36. . . . \$4.00

No. 408—Self-Reducing Corset, same style as No. 406, but higher bust and under arm; for tall and medium stout figures; sizes 20 to 36. . . . \$4.00

No. 522—Self-Reducing Corset, with Lastikops Bandlet—the perfect abdominal support; medium bust, long skirt; sizes 20 to 36. . . . \$5.00

No. 523—Self-Reducing Corset, same style as No. 522, but lower bust and under arm; for short, stout figures; sizes 20 to 36. . . . \$5.00

### Some Reasons Why Nemo Corsets Outwear All Others.

**BECAUSE**—every Nemo is made with the patented "Triple-Strip Re-enforcement," by means of which three strips of cloth (instead of one) resist the tendency of bones and steels to push through at top and bottom.

**BECAUSE**—every yard of material is thoroughly tested for strength by means of specially devised and accurate instruments.

**BECAUSE**—Nemos are made with the "double-bone wires" (original with us), which are practically unbreakable, and with steels of the very highest quality obtainable.

**BECAUSE**—the scientific designing of all Nemos assures the smallest possible degree of strain upon the corset.

**BECAUSE**—every Nemo is subject to rigid examination by at least a dozen skilled inspectors (following each stage of manufacture), and any corset which shows the slightest flaw or defect is cast aside.
